After the competition, athletes leave immediately through the mixed zone. Live Mixed Zone will be on the tribunes near to the finish line.
In the mixed zone, all athletes meet the media: first TV, then radio and finally the written press. It is for the athlete to decide whether he/she will give an interview.
The clothing baskets will be brought to the kits collection area located after the mixed zone.

The first three athletes in each event may be asked to attend an official press conference. These press conferences will take priority over all other interview requirements. They will usually be held before doping controls.

**10.9 Protests and Appeals**
Protests and appeals will be processed in accordance with IAAF Rule 146.

In the first instance, protests must be made orally to the Referee by the athlete himself/herself or by someone acting on his/her behalf or by an official representative of a team (Rule 146.3). Such person or team may protest only if they are competing in the same round of the event to which the protest (or subsequent appeal) relates.

Where the appropriate Referee is not accessible or available, the protest should be made to him through the TIC. Protests concerning the result or conduct of an event shall be made within 30 minutes of the official announcement of the result of that event (posted on the TIC information board).

If the final decision of Referee is not satisfactory a written appeal can be submitted to the Jury of Appeal also through the TIC.

Any written appeal to the Jury of Appeal must be made in accordance with Rule 146.5 and signed by a responsible official on behalf of the athlete and submitted to TIC within 30 minutes after the official announcement of the decision made by the Referee.

When submitting an appeal form, a deposit of EUR 75, as set in the rules, must be paid. If the protest is unsuccessful, the deposit will not be returned. The Jury’s decision will be provided in writing.

**10.10 Special procedures for athletes introduction**
For the track finals the athletes will be escorted to Presentation platform for introduction and then they will enter the Field of play. For the field events finals athletes will be escorted first to Field of play for warming up, then to Presentation platform for introduction and then they will enter the Field of play for competition.
11. MEDICAL SERVICES & DOPING CONTROL

11.1 Medical Services
The medical service is in charge of any medical assistance to all accredited guests (Teams, LOC personnel, VIP guests and media) as well as, during the competition, to the spectators in the stadium.

In case of emergency, please contact the nearest medical first aid station or call the 24/7 Medical Emergency number 194.

11.1.1 Medical Meeting
There will not be a separate Medical Meeting. The Medical and Anti-Doping topics will be presented at the Technical Meeting.

11.1.2 Medical Services in the Team Hotels
In case of emergency, call 194 (English-speaking). If necessary, Emergency Medical Service provides transport and emergency services contracted by the VMA (Military Medical Academy).
In other cases, the given instructions should be followed. Dr. Nikola Čikiriz is in charge of the LOC coordination of medical services and can be reached via phone on +381641587525.

11.1.3 Medical Care at the Competition Venue, Warm-up, and Training Areas
The stadium medical service is responsible for any problems concerning the athletes’ health. There is also a room for medical attention next to the finish line. The team doctor has access to the medical service facilities when an athlete of his/her own team is hurt or is in need of other medical attention.

The stadium medical service is also responsible for first aid in the warm-up area.

There are two first aid teams around the infield, supervised by a doctor and marked with the red crosses.

11.2 Physiotherapy Services
11.2.1 Physiotherapy Services in Team Hotels
There will be some rooms available for physiotherapy use in the team hotels. The physiotherapy room will be equipped with massage tables and ice.

Athletes willing to book a treatment shall proceed to the Information Desk in their respective team hotel, where volunteers will make arrangements according to the availability.

11.2.2 Physiotherapy Services at Warm-up and Training Areas
There are well equipped physiotherapy facilities in the warm-up area. All teams have their own facilities prepared as well as a physiotherapy room, including the availability of the LOC physiotherapist.
The team physiotherapists and doctors may use the equipment in the physiotherapy room in co-operation with the medical staff.
11.3 Injuries Surveillance
During the event, the team physicians or physiotherapist of all participating national teams are requested to report daily all injuries newly incurred in competition or in training and all illnesses using a specially designed, single page report form per day/ or using a specially designed IT tool. Injury and illness data will also be obtained from the LOC medical staff. The report form is available in five languages (English, French, German, Spanish and Russian) at the TIC and the medical centre. All information will be treated strictly confidential. The team physician will receive a formal report of the study in due course after the European Athletics Championships. Further information about the survey will be given during the Medical Meeting.

11.4 Import of Medication and Medical Equipment
For any information, please, contact medical@atletika2017.org.rs.

11.5 Doping Control
11.5.1 General Information
Doping controls will be conducted in accordance with IAAF Rules and Anti-doping Regulations. They are in accordance with the revised WADA code in force since 1 January 2015. The controls will be done under the supervision of the European Athletics Doping Control Delegate. Both urine and blood samples may be collected immediately before, and during, the Championships.

Athletes selected for doping control shall be informed by the anti-doping officials. Athletes will be required to sign a doping control notification form. They can be accompanied to the Doping Control Station (DCS) by an accredited team representative of their choice.

A selected athlete should report immediately to the DCS unless there are valid reasons for delay. All selected athletes will be accompanied by a trained chaperone or Doping Control Officer from the time of notification until arrival at the DCS. Athletes are reminded that refusal to provide a sample result in liability to disqualification and may result in further disciplinary action.

Athletes who are required to use prescribed medication for the treatment of a medical condition should ensure that they have registered their medication, where necessary, through the Therapeutic Use Exemption system prior to attending the Championships.

11.5.2 Selection of Athletes
The selection of athletes for control will be made on a final position and/or random basis under the supervision of the European Athletics Doping Control Delegate. In addition, the selection of further athletes may be ordered at the discretion of the European Athletics Doping Control Delegate.

All athletes setting World or European records must report to the DCS to provide a sample. Failure to provide a sample will result in the record not being ratified.
11.5.3 Additional Controls
Athletes requiring doping control (e.g. for national record) may request to be tested by reporting to the TIC, where a “Doping Control Request Form” should be completed. They will then be escorted to the Doping Control Station. The cost of this control will be paid by the European Athletics and will be deducted from the member federation’s European Athletics subvention after the Championships.

12. CEREMONIES & SOCIAL FUNCTIONS
